For: CINNAMON FLAVOR COMPOSITIONS)
COMPRISING CINNAMIC ALCOHOL AND)
EUGENOL (as amended))

SUPPLEMENTAL RESPONSE

Commissioner of Patents and Trademarks
U.S. Patent and Trademark Office
Customer Window
Randolph Building
401 Dulany Street
Alexandria, VA 22314

Sir:

Supplementing the applicant's response of November 21, 2007, the applicant has just informed the undersigned of an error in said response (page 8, 1st ¶) where it is stated that heliotropin and aubepine are only used in perfume compositions and never used in flavor compositions. Counsel has been informed that aubepine and heliotropin are apparently used in flavor compositions but at very low levels (e.g. less than 50 ppm). The applicant's arguments against the Slangan et al. reference remain applicable, however, as a composition containing Lyril and/or the large amount of terpineol, as in Slangan et al., would not be used as a flavor composition.

Favorable action is requested.

Respectfully submitted,

MORGAN LEWIS & BOCKIUS LLP
